By PR Newswire

BLOOMFIELD HILLS, Mich., July 3 /PRNewswire/ -- Only two months after appearing on The Oprah Winfrey Show, Julian Pavone, who became known as "The World's Youngest Drummer" at only 20 months old, will appear July 10 on The Fuji Television Network show entitled, Amazing Stories -- Super Kids.

Julian's parents, Bernadino and Lisa Pavone, said the trip would have been a difficult one for their son, so they made arrangements with the show to broadcast video footage of Julian's performances instead.

"Obviously, we were very flattered by this prestigious invitation, but this would have been a difficult trip for Julian (who is now four years old). He has commitments to his music school and will be performing at several other events. This is tremendously exciting for Julian and our entire family," said Lisa Pavone.

What does a company do when it makes a highly successful DV camcorder that fits in the palm of your hand and shoots surprisingly high quality 640x480 resolution video? At less than \$200? Well, it shrinks the next version, adds some cool sharing features in the intuitive software that ships with it, and adds a neat touch sensitive controls for manipulating the cameras basic controls. Colored Pencil Sketch Effect in Corel Photo-Paint

In a recent time consuming search for a tutorial on how to create a water-color sketchy effect, I found only Photoshop compatible plug-ins. I am using Photo-Paint X4 which is capable of using many Photoshop filters; I tried them but none were really what I wanted. So I messed around within the program and I did come up with a sort of sketch effect, which if I am honest, isn't really what I wanted either. [READ MORE](#)
